## Profile

An upcoming software engineering graduate offering a strong foundation in software concepts and programming principles across multiple platforms, seeking to begin professional career to enhance and explore my technical knowledge gained at Teerthanker Mahaveer University in the last three years.

## Skills Summary

- Excellent experience of developing java codes using OOP concepts.
- Good exposure of front end development using HTML & CSS.
- Quickly learn and master new technologies, successful working in both team and self-directed settings.

## Education

**BCA, Teerthanker Mahaveer University**– May 2020

Full-time **74.00%**

- **Project: Music Player**
- In this application we read Mp3 Songs/Music from Phone Memory and show into List View. Also we created a Professional Looking Music Player User-interface for this app.

**Project Scope:** Play mp3 music.

**Tools:** Android Studio, XML & Java

**XII, Rashtriya inter college, UP Board**– May 2017

Full-time **71.00 %**

**X, Rashtriya inter college, UP Board** – May 2015

Full-time **68.00 %**

## Technology Summary
